Diversity Week
April 23-28, 2018
Welcome to Weill Cornell Medicine’s inaugural Diversity Week!
We are excited to engage all members of our diverse community in the week’s events. A variety of lectures and activities will showcase cutting-edge scholarship and initiatives focused on enhancing diversity and reducing healthcare disparities both on campus and nationwide.

Weill Cornell Medicine is proud to be a community made up of diverse individuals. We believe that diversity in all its forms—regardless of whether or not one identifies personally as a member of a particular group—is essential to achieving excellence in patient care, research, and education. Diversity and gender equity, both in our student body and in the workforce, will enable us to develop new and better solutions to the complex problems we face in medicine and healthcare.

Weill Cornell Medicine is committed to advancing diversity and inclusion within academic medicine, during Diversity Week and throughout the year. Thank you for joining us this week as we celebrate the rich and varied backgrounds and perspectives that we bring to all our endeavors.

Sincerely,

Augustine M.K. Choi, MD

Weill Cornell Medicine
Provost for Medical Affairs
Cornell University
The Office of Diversity and Inclusion is thrilled to launch Weill Cornell Medicine’s first-ever Diversity Week. Diversity is an institutional priority at Weill Cornell Medicine that informs all aspects of our mission to care, discover, and teach. Diversity Week celebrates the many different initiatives and individuals that are moving us closer to greater equity in patient care, biomedical discovery, and medical and graduate education each day.

We are delighted to welcome Dr. Hannah Valantine, the Chief Officer for Scientific Workforce Diversity at the National Institutes of Health, who will be delivering a keynote address on April 23. Diversity Week will feature a series of departmental grand rounds, an awards ceremony and reception to honor excellence in diversity, the annual Women in Global Health Research Initiative Scientific Conference, our annual Family Day for medical students, and many other seminars and activities.

Weill Cornell Medicine has a wide variety of initiatives that support women, men, the LGBT community, and individuals from diverse, underrepresented, and disadvantaged backgrounds in science and medicine. We thank everyone across our institution for their efforts to achieve greater equity and inclusiveness within academic medicine and for their help in making Diversity Week a success.

Sincerely,

Rache M. Simmons, MD and Linnie M. Golightly, MD

Keynote Address

Hannah Valantine, MD, MRCP
NIH Chief Officer for Scientific Workforce Diversity
Senior Investigator, NIH National Heart, Lung, and Blood Institute

NIH Addresses the Science of Diversity:
Focusing on Institutional Change
Monday, April 23, 2018 | 12:00 PM – 1:00 PM
Uris Auditorium
Co-hosted with the Weill Cornell Graduate School
of Medical Sciences

Abstract: NIH’s first Chief Officer for Scientific Workforce Diversity Dr. Hannah Valantine will describe NIH’s current approach and activities related to enhancing scientific workforce diversity. She will highlight four main diversity challenges facing biomedicine: Advancing scholarship of the science of diversity; Using a data-driven scientific approach to understand diversity drivers and outcomes; Studying and mitigating the role of sociocultural factors in recruitment, retention, and career advancement; and Sustaining future workforce diversity. She will also highlight development and use of the NIH Scientific Workforce Diversity Toolkit, a free, downloadable interactive resource institutions can use to help advance their own faculty diversity. The toolkit guides users through evidence-based interrelated activities that her office is currently using to enhance diversity in the NIH intramural research program. These include expanding diversity of the candidate pool, proactive outreach to diverse talent, mitigating bias in search processes, and developing/sustaining mentoring relationships. A key focus will be the need to advance institutional accountability for lasting change. Please visit the NIH Scientific Workforce Diversity website (https://diversity.nih.gov) and Dr. Valantine’s blog (https://diversity.nih.gov/blog) for more information.

Biography: Dr. Hannah Valantine is the first NIH Chief Officer for Scientific Workforce Diversity, and a Senior Investigator in the Intramural Research Program at NIH’s National Heart, Lung, and Blood Institute. Prior to arriving at NIH in April 2014, Dr. Valantine was Professor of Cardiovascular Medicine and the Senior Associate Dean for Diversity and Leadership at Stanford, a position she held since November 2004. She is nationally recognized for her transformative approaches to diversity and is a recipient of the NIH Director’s Pathfinder Award for Diversity in the Scientific Workforce. She is currently leading NIH efforts to promote diversity through innovation across the NIH-funded biomedical workforce through a range of evidence-based approaches. Dr. Valantine maintains an active clinical research program that continues to have high impact on patient care. Current research extends her previous finding that an organ transplant is essentially a genome transplant, and that monitoring the level of donor DNA in a recipient’s blood as a marker of organ damage will detect early stages of rejection. She is currently overseeing a multi-site consortium of mid-Atlantic transplant centers to validate these findings clinically toward the development of a non-invasive tool for detecting early signs of organ rejection.
Dean’s Diversity and Healthcare Disparity Research Awards
The inaugural Dean’s Diversity and Healthcare Disparity Research Awards will support excellence in research to improve the health of underrepresented minorities and/or reduce health disparities in healthcare systems and in clinical settings, either locally or globally. This year’s recipients will present posters of their research at the Diversity Awards Ceremony and Reception.

Dean’s Diversity Scholarships
Starting in 2018, full-tuition Dean’s Diversity Scholarships will be awarded to two accepted medical students annually in order to support the diversity of the student body. This new program will be formally announced at the Diversity Awards Ceremony and Reception.

Laurie H. Glimcher, MD Award for Excellence in Mentoring Women
The Laurie H. Glimcher, MD Award for Excellence in Mentoring Women recognizes outstanding men and women faculty at Weill Cornell Medicine who demonstrate commitment to advancing the academic careers of women in the areas of clinical care, research, or education. The individual must have a track record of providing strong mentorship, as well as fostering a nurturing and supportive environment for all faculty.

2018 recipient: Mary E. Charlson, MD, William T. Foley Distinguished Professor of Medicine

Pioneers in Diversity Awards
The Ida Sophia Scudder, MD Award for Excellence in Public Service recognizes an MD, PhD, MD-PhD, or PA student who has made significant contributions in the field of community service and providing care to the underserved.

2018 recipients: Rolake Alabi, Tri-Institutional MD-PhD student, class of 2018
           Eric Kutscher, MD student, class of 2018

The Bruce Laine Ballard, MD Award for Excellence in Mentorship is presented to a faculty member who demonstrates a commitment to improving student life and to fostering a nurturing and supportive environment where students are able to thrive and succeed.

2018 recipient: Anthony Ogedegbe, MD, Assistant Professor of Clinical Medicine

The Louis Wade Sullivan, MD Award for Excellence in Public Health Advocacy honors a resident or postdoctoral fellow who has been an outspoken champion for health promotion and a public health advocate, especially for medically underserved populations.

2018 recipient: Maurice Hinson, MD, Resident in Internal Medicine, NYP/WCMC

The Administrative Staff Award recognizes staff members who embody the spirit of cultural diversity and service. This award honors staff members who have gone beyond the call of duty to make sure the environment is inclusive, engaging and welcoming, and whose efforts may often go unnoticed.

2018 recipient: Sharon Brooks, Curriculum Assistant
